**GRAIN MARKET**

CHICAGO, Nov. 2.—Reports of increased tension between Greece and the Anglo-French allies did a good deal today toward bringing about higher prices for wheat. The market closed strong, 1½ to 2 and 2-1-8 up, with December at \$1.04½ and May at \$1.05½. Other leading staples scored net gains—corn ½ to ¾@3-4. Oats gained ¼ and provisions a shade to 1½.

Upturn in the wheat market began right at the start and received at no time any important check. In the corn pit, assertions that the quality of this season's crop averaged only 74.9 per cent as against 85 per cent for a series of years gave an advantage to the bulls. Besides, there was talk of an improved export demand at the seaboard. Oats were also helped upward by advices of a good distributing business in the east. Cash transactions here, however, were not enlarged to any perceptible extent.

Strength in the provision market resulted chiefly from a radical cutting down of western stocks of meats. Packers soon on the bulge.

**I. C. C. MEN TO HOLD HEARING**

Charges Against Arizona Railroads of Rate Discrimination to Be Heard in Phoenix on December 13 Before Commission.

Members of the Interstate Commerce Commission will be in Phoenix on Monday, November 13, for the purpose of passing on the merits of two cases which have been filed against several railroads of the state by the State Corporation Commission. One of the actions involves charges against the Southern Pacific and several other roads which operate in this state, the complaint being that the roads during the past summer boosted their passenger rates between this state and California points, and that in other sections of the country the California fares were lowered.

The second matter to be considered is the charge that the Santa Fe is charging too high a rate on ore shipments from Silver City, N. M., to Douglas, the rates amounting to a discrimination against the smelter owners in the latter city. The rates on corresponding shipments to El Paso are said to be materially lower, and the smelter people are going to seek an equalization of the rates. The hearings will be held in the U. S. circuit court room, and will be in charge of Examiner Worthington.

**CULINARY SKILL OF CLUB WOMEN**

A Cooking Contest Followed by An Auction

That club women can cook was demonstrated yesterday when a bread, cake and salad contest was conducted by the home economics department of the Woman's Club. After prizes had been awarded an auction was held, with Mrs. E. T. Collins as auctioneer, and the department treasury added several dollars to its fund. There were twenty-four who competed for prizes—only department members being eligible and the awards were made as follows: Bread, Mrs. A. B. Smith and Mrs. J. F. Kelly; cake, Miss Flora Grier, Mrs. Frank H. Parker, Mrs. D. D. Crabb; salad, Mrs. O. C. Bartlett, Mrs. D. D. Crabb and Mrs. Alma Lowe.

Mrs. R. M. Tafel, chairman of the section, gave an interesting talk on home economics, after which the department was hostess to the club. A delightful social hour was enjoyed, and delicious refreshments served.

**SHORT SKIRT HAS DEFENDER**

Yet He Would Not Impose Abbreviated Garment on All Women Willy Nilly—In All Things Taste Is Arbitrator of Fashion.

"A woman should devote an hour a day to self."

"A woman should secure professional advice relative to accentuating and preserving her beauty."

"If a woman is not attractive she should endeavor to make up some of the deficiencies."

"Low necked dresses and short skirts are a matter of individual taste—a woman is conspicuous if she does not follow the prevailing modes."

"A woman decrees for herself, not for men or other women."

These assertions were made by H. M. Fennimore, president of the Chamber of Commerce, well known attorney and clubman, who believes that a woman owes it to herself to be as attractive as possible.

A prominent eastern magazine recently remarked that low necked dresses, short skirts, puffed and fancy silk stockings affected in a great measure sensitive and super-sensitive men. He would welcome, he said, a return of the high necked frock and long skirt, which invites the respect of the male sex.

Mr. Fennimore's ideas on the subject are more progressive. "There is much to be said in favor of the vogue of the present time. The short skirt is sensible and sanitary. It allows a freedom of movement and does not sweep up the dirt and gather microbes from the streets which are worth while considerations. A uniform style would be absurd. What might be becoming to one woman might be hopelessly unbecoming to another and it is a woman's duty to make herself attractive. She should devote an hour a day to self. She should consult a beauty specialist and temper the advice she receives with that of her physician—then there will be no harmful results and she will have gained knowledge that is of real value—how to exploit and preserve her beauty. I am not adverse to the use of lotions, powders and rouge if applied artistically, though extreme care should be taken in the application that there should not be the slightest suggestion of makeup. If a woman has not a good complexion and she overcomes the deficiency she looks better and gains confidence in herself."

"Women are not vain," declares Mr. Fennimore, "for they would study themselves and that they do not is evidenced by the way they neglect their most attractive feature—their hair."

"See a professional," advises Mr. Fennimore who would have every woman's face studied before the style of coiffure is decided upon. Then he would devote much time to brushing her hair that it might be smooth, glossy and full of life.

Costuming, he believes, should be a matter of taste.

"A woman dresses for the pleasure of owning and wearing lovely costumes. She is far more conspicuous when out of style than when following the prevailing modes. She need not be an extremist. The present costumes are in as good taste as they were in the glimmer and sun-bonnet days, just as the girls of today are as good as the girls of any day. They have more liberties in this progressive age and are better judges of what is right or questionable. They know men and women are independent and that independence should not be mistaken for boldness or immodesty."

**TEMPE COUNCIL HAS TO MANY MEMBERS; FOGAL SAYS STILL IN**

Fogal, Eight Months Absent from Aldermanic Meeting Returns to Seat. Is Still a Member? Attention General to Determine It

Is Frank Fogal a member of the common council of Tempe or not, is a matter that attracted the attention of the councilmen and a hundred citizens at a meeting night before last, and after two hours of discussion the determination of that important question was left to the attorney general. Fogal is of the opinion that he is a member, and Attorney Charles C. Woolf of Tempe is of the opinion that Fogal absented himself from a meeting of the aldermen for a period in excess of ninety days and that in that case he is automatically out of office. And the citizens, Representative James C. Goodwin in particular, who is the tribunal in such a case?

That something out of the ordinary might happen at the council meeting Monday night attracted a record attendance and from the moment Mayor Frizzell called the meeting to order, the outsiders began to realize their expectations. Frank Fogal, sitting at one end of the table for the first time in eight months was not recognized in the roll call and immediately thereupon Citizen J. C. Goodwin arose to inquire why. In the petition to Governor Hunt that Mayor Frizzell and Councilman DeVore recently presented and which resulted in the appointment by the executive of Dr. Alexander as councilman, it was pointed out that former Councilman J. T. Birchett had been out of office for a period of three months or more, and that Councilman Frank Fogal had absented himself from council meetings for over ninety days. Fogal objected to this; he had offered on various occasions to meet with Councilman Buck and Mayor Frizzell he said, but they refused.

After a lengthy discussion by the mayor, the town attorney and others, the gathering was still just as much at sea as to whether Fogal was actually a councilman or not. If he is, the appointment of the governor and the resultant selection of Councilman Daniels is void and the work of the council since these men came in will have to be retraced. Fogal was approached on the idea of accepting the appointment as a fifth member, the principal reason for which the aldermen had met that evening, and the councilmen themselves cheerfully offered to make the appointment, but Fogal flatly refused such a proposition.

"If I am not legally a councilman I want to be shown, and if I am not now a councilman I won't be made one," was his statement.

It is apparent now those involved have agreed to await the judgment of the attorney general's office on the case.

**GIRLS! GIRLS! YOU MUST TRY THIS!**

**DOUBLES BEAUTY OF YOUR HAIR**

For 25 Cents You Can Make Your Hair Lustrous, Fluffy, and Abundant

Immediate?—Yes! Certain?—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair.

A delightful surprise awaits those whose hair has been neglected or is scanty, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.
